Would you be in favor of a four-year alignment cycle (with the option to consider significant changes on a case-by-case basis in the middle of that four year cycle)?

No

At the December Executive Committee meeting, the committee unanimously approved that beginning with the 2014-15 school year, where possible, leave schools in their existing conferences and regions structure whenever appropriate when creating new multi-class events. The Alignment Committee had previously placed greater priority on balancing the size of conferences and regions when assigning schools to multi-class events. Member school feedback on this matter is welcome below: Continue balancing the size of conferences and regions when assigning schools to multi-class events. One conference should not have 8 schools while the other only has 5. Take geography into consideration.

Indicate any concerns you have with factors such as travel, geography, natural rivalries, finances, balance and any other considerations in regard to alignment.: Those concerns have been addressed with the new classification system.

Yes

Indicate any concerns you have with factors such as travel, geography, natural rivalries, finances, balance and any other considerations in regard to alignment.: I have no problem with being in Conference 44 and Region 1A East. If and when we make the post season it is necessary to be re-imbursed for travel. I do feel that hosting schools should be able to keep a small percentage of the gate in addition to pay for event workers.

Yes

At the December Executive Committee meeting, the committee unanimously approved that beginning with the 2014-15 school year, where possible, leave schools in their existing conferences and regions structure whenever appropriate when creating new multi-class events. The Alignment Committee had previously placed greater priority on balancing the size of conferences and regions when assigning schools to multi-class

events. Member school feedback on this matter is welcome below: We are in 1A-East and had to travel roughly 3.5 hours to James River High in Buchanan for our regional cheer tournament, when the 1A-2A East tournament was held only 1.5 hours away from us at Appomattox Regional Governors School. We incurred tremendous expenses in meals and hotel rooms because of our meals and hotel expenses. These are not expenses that a school of our size can easily afford.

Indicate any concerns you have with factors such as travel, geography, natural rivalries, finances, balance and any other considerations in regard to alignment.: Some of the conferences are so big that their regular season schedules are booked solid with conference teams alone. This makes it easier for them to schedule, but more difficult for the smaller conferences to find games at a reasonable proximity.

When schools are next aligned, would you prefer to stay in your current district?: No

If you answered “yes” above, are there other schools you would want added to your present district?:

If you answered “no” above, please indicate the reasons you prefer to move to (or form) another district.: I would like to see the 3A schools in my district move to a district more their size and see my district take in other smaller schools that are geographically close. Whether that means the Bull Run Changes or a new district is formed, I don't know.

When schools are next aligned, would you prefer to stay in your current conference?: Yes

If you answered “yes” above, are there other schools you would want added to your present conference.: There are no others I am aware of that would make geographic sense to be added to the Rapp River Conference.

If you answered “no” above, please indicate the reasons you prefer to move to (or form) another conference.:

When schools are next aligned, would you prefer to stay in your current region?: Yes

If you answered “yes” above, are there other schools you would want added to your present region?: none I am aware of, but probably there are some in 1A West that could be in 1A East. Both regions are huge and the dividing line is subjective, but that is the nature of things and I am OK with it.

If you answered “no” above, are there other schools you would want added to your present region?:

If you answered “no to questions 6, 9, 12 indicate the district, conference, region you would prefer to be placed in.

Would you be in favor of a four-year alignment cycle (with the option to consider significant changes on a case-by-case basis in the middle of that four year cycle)?

Yes **Comments** Caveat here would be that I would like to see some parameters put in to accommodate sudden growth. In other words, I'd hate to see a 1A school start a four year cycle at the top of the chart, numbers wise, and then add a hundred kids a year yet still get to remain in 1A

At the December Executive Committee meeting, the committee unanimously approved that beginning with the 2014-15 school year, where possible, leave schools in their existing conferences and regions structure whenever appropriate when creating new multi-class events. The Alignment Committee had previously placed greater priority on balancing the size of conferences and regions when assigning schools to multi-class events. Member school feedback on this matter is welcome below: I support what the Executive Committee decided at their December meeting.

Indicate any concerns you have with factors such as travel, geography, natural rivalries, finances, balance and any other considerations in regard to alignment.: I believe that it is up to each conference and region to figure out how best to deal with travel and compensation for those expenses. IF the VHSL

continues down the path to prosperity that it seems to be on, I doubt anyone would argue if they, the VHSL, could find a way to help out with travel costs. I can understand that for some schools the extreme travel that sometimes comes with this new alignment can be a REAL financial burden. What do you do when you have to spend a thousand or more dollars to get a team somewhere and put them up for the night but you just don't have that money anywhere in the budget? I was able to get my school board to budget extra money this year for athletic travel - money I hope to have cause to spend - but I seriously doubt many other schools were as fortunate.

Provide any additional comments below.: I LOVE the new alignment and will gladly work to help iron out any bugs. For my school, and many others, the opportunity to finally compete on a more or less level playing field is a breath of fresh air that is breathing new life into my athletic programs.

The Alignment Committee had previously placed greater priority on balancing the size of conferences and regions when assigning schools to multi-class events. Member school feedback on this matter is welcome below: WE were involved in only two of these events. one was the Theatre that evolved into competition with 2A School on the state level. This was not a problem. The other involved competition cheer. We were placed in a 2A Conference which required, had we qualified, that we drive all the way to Buchanan County on a Tuesday night. Our conference was composed of all 1A schools from our general area. All had to pass a conference further West by at least an hour and in a couple of case the schools in that conference were within one hour driving time form James River High School. I feel most of the schools in our conference felt this was an unfair burden financially, academically, and physically considering the time involved. This needs to be addressed.

Indicate any concerns you have with factors such as travel, geography, natural rivalries, finances, balance and any other considerations in regard to alignment.: See response to number 17.

Provide any additional comments below.: I am very satisfied with the alignment as is and feel that two years is not a good judge on how this will work. I think that we need to go at least four years to get a true evaluation of the system.

Provide any additional comments below.: Football playoff has too many teams in. Maybe a 12 team instead of 16 would be better. Playing 15 games to win a state championship in football is hard on the players. They are playing more than colleges in a shorter amount of time.
