If you answered "yes" above, are there other schools you would want added to your present district?: None added!! I wanted to answer NO. but not at the expense of time and travel for Abingdon. The conference has to be the priority. We can stay in our district but need to be able to play everyone in our conference at least once for seeding purposes. We have already experienced issues this fall with volleyball, and the basketball tournaments are just around the corner. Our AD's can work out the kinks if there is some flexibility with district scheduling.

Would you be in favor of a four-year alignment cycle (with the option to consider significant changes on a case-by-case basis in the middle of that four year cycle)?

No **Comments** A four year alignment may be too long for a realignment. I would suggest more of a three year cycle.

Indicate any concerns you have with factors such as travel, geography, natural rivalries, finances, balance and any other considerations in regard to alignment.: As of now, it seems that finances and travel could become a major issue with most schools when traveling to conference or region events. The money that will be paid out of travel reimbursements from the region could end up being more than many anticipated, eventually causing region funds to become inadequate to support sports throughout the entire year.

Would you be in favor of a four-year alignment cycle (with the option to consider significant changes on a case-by-case basis in the middle of that four year cycle)?

Yes

At the December Executive Committee meeting, the committee unanimously approved that beginning with the 2014-15 school year, where possible, leave schools in their existing conferences and regions structure whenever appropriate when creating new multi-class events. The Alignment Committee had previously placed greater priority on balancing the size of conferences and regions when assigning schools to multi-class events. Member school feedback on this matter is welcome below: Totally agree with the Executive Committee decision. I like continuity and consistency.

Indicate any concerns you have with factors such as travel, geography, natural rivalries, finances, balance and any other considerations in regard to alignment.: Travel and finances are most important. We have an 8 team conference in a region with a 6 team conference. The balance needs to come at the Region level where a larger conference has an additional team going to region play.

Would you be in favor of a four-year alignment cycle (with the option to consider significant changes on a case-by-case basis in the middle of that four year cycle)?

Yes **Comments** I have always been a proponent of this idea for just these reasons. The one question that I have is whether football contracts would be for four years, district and non-district

Comments I think the two year cycle has worked well and we should continue with this.

At the December Executive Committee meeting, the committee unanimously approved that beginning with the 2014-15 school year, where possible, leave schools in their existing conferences and regions structure whenever appropriate when creating new multi-class events. Member school feedback on this matter is welcome below: Agree

Indicate any concerns you have with factors such as travel, geography, natural rivalries, finances, balance and any other considerations in regard to alignment.: For Conference 31, the distance from Magna Vista to Alleghany is 2+ hours. Although this only happens in conference play, it is still a concern. It seems as though Magna Vista was stuck in Conference 31 when they could have been added to a Conference in closer proximity to them.

When schools are next aligned, would you prefer to stay in your current district?: No

If you answered “yes” above, are there other schools you would want added to your present district?:

If you answered “no” above, please indicate the reasons you prefer to move to (or form) another district: Personally, I would like to see the elimination of district play (or the requirement to play the teams in your district) or move Patrick County out of the Piedmont. For us, travel to Halifax County, GW Danville, and Franklin County is no different or better than in our conference. Additionally, asking our school to compete with schools of such greater size is asinine and truly defeats the purpose that the alignment was meant to fix. So we are being asked to travel 2 hours play a team that has almost 1,000 more students Finally, not playing teams during the regular season that you are going to compete with in the conference tournament puts our school at a distinct disadvantage in comparison to 4 of the schools in our conference that play in the same district. We would still look to schedule some of the schools in the Piedmont for non-league play, but not being tied to the district schedule would allow all our programs more autonomy in scheduling that would be better for our kids.

When schools are next aligned, would you prefer to stay in your current conference?: No

If you answered “yes” above, are there other schools you would want added to your present conference.: Magna Vista, Tunstall

If you answered “no” above, please indicate the reasons you prefer to move to (or form) another conference.: I am not opposed to Conference 32 membership and I think we fit nicely. However, we have three schools in our district that of the same size that compete in different conferences. To me there must be a better way for us, Magna Vista and Tunstall to join with other 3A members.

If you answered “no” above, are there other schools you would want added to your present region?:

Would you be in favor of a four-year alignment cycle (with the option to consider significant changes on a case-by-case basis in the middle of that four year cycle)?

Yes

Indicate any concerns you have with factors such as travel, geography, natural rivalries, finances, balance and any other considerations in regard to alignment.: Addressed in previous comments. I think we have lost the meaning of regular season play and for Patrick County this system does not benefit us competitively, in terms of travel or financially.

Would you be in favor of a four-year alignment cycle (with the option to consider significant changes on a case-by-case basis in the middle of that four year cycle)?

No **Comments** This is an unfair question, there are only a few schools in each classification that this really involves. I would be in favor of having 4 year cycles if you let the schools who are "on the bubble" (within 75 kids of either classification) get to choose which classification they are in. That will give the state more stability and the school more stability and not have to suffer for 4 whole years before going back down

Indicate any concerns you have with factors such as travel, geography, natural rivalries, finances, balance and any other considerations in regard to

alignment.: I just want to give my kids a shot at being successful, being in 3A does not give our team a shot. Once again, we missed being in 2A by a small amount of kids.....if you give the 4 or 5 schools in each classification that are in this "boat" that are within 75 kids of a different classification, you seem to be making it more equitable.

At the December Executive Committee meeting, the committee unanimously approved that beginning with the 2014-15 school year, where possible, leave schools in their existing conferences and regions structure whenever appropriate when creating new multi-class events. The Alignment Committee had previously placed greater priority on balancing the size of conferences and regions when assigning schools to multi-class events. Member school feedback on this matter is welcome below: A meaningless middle tier of "conferences" has been added to a system that didn't need to be any more complicated. Balance districts by school size, a disparity of a school with less than 600 students in the same district with a school of 2200+ students is ludicrous.

Indicate any concerns you have with factors such as travel, geography, natural rivalries, finances, balance and any other considerations in regard to alignment.: Only a few LARGE schools are "saving" money on travel (and feasting on small school competition) while most smaller schools are traveling farther than ever, especially for the playoffs.

Yes **Comments** I think it would be easier for schedule purposes, and not as much speculation among administrators and coaches.

At the December Executive Committee meeting, the committee unanimously approved that beginning with the 2014-15 school year, where possible, leave schools in their existing conferences and regions structure whenever appropriate when creating new multi-class events. The Alignment Committee had previously placed greater priority on balancing the size of conferences and regions when assigning schools to multi-class events. Member school feedback on this matter is welcome below:

Indicate any concerns you have with factors such as travel, geography, natural rivalries, finances, balance and any other considerations in regard to alignment.: I don't think it is fair that our region only takes two teams per conference on to region play. We are in a 8 team conference and take the top 2 teams, and there is a 5 teams conference that takes the top 2. The representation hurts the larger conferences. I think we should go to a model based on percentage of teams going to regional play. For example in Region 3 A west for team sports other than football we should take 4 from an 8 team conference, 3 from a 6-7 team conference, and 2 from a 5 team conference and that would still give you 12 teams moving on to regional play. I also think that should be uniform across the state. We get questions all of the time about why a conference down the road takes 4 teams, and we only take 2. Also, 16 teams for football is too many. We should go back to 12 teams with the top 4 seeds getting a bye. That would eliminate a round of the playoffs. August 1st to the second week of the December is too long for those football teams making it all the way.

If you answered "no" above, please indicate the reasons you prefer to move to (or form) another district.: I don't see the need for us to have all the classifications OF 2 through 6 in our District, it makes the district mean absolutely nothing. We don't see these teams after district and it does us no good to play them unless they are in our same classificati

When schools are next aligned, would you prefer to stay in your current conference?: Yes

If you answered "yes" above, are there other schools you would want added to your present conference.: The conference is fine, but we should have the chance to play each other outside of the tournament, but since our districts are so big we don't have a chance and we have to play teams in our county that are not in our same classificiation.
